Arm your drivers with Azuga FleetMobile and watch driving skills, vehicle care, fuel use and safety improve.

Azuga FleetMobile makes it easy for businesses to engage with their drivers, pair drivers with vehicles, prevent distracted driving, reward them for safe driving and coach drivers to improve driving skills. It provides scores and a leaderboard to drive competition among drivers. Badges and push notifications alert drivers to unsafe driving events. The app also lets fleet managers communicate with drivers using in-app messaging, get live map fleet views, review driver scores and much more.

## AZUGA DRIVESAFE™\*

Monitor and prevent cell phone use while the vehicle is in motion (e.g., texting, calling, use of apps).<sup>1</sup>

## DRIVER SCORES

Let drivers see how well they drive, habits they need to fix, and their rank against co-workers for rewards.

## DRIVER REWARDS

For top drivers, send rewards using Azuga Fleet. Drivers can access and use them right from the app.

## MOBILE WORKFORCE TOOLS

Give your team time cards and jobs to simplify data capture in the field and reduce paperwork for everyone.

## PAIR DRIVERS TO VEHICLES

For open vehicle pools, track which driver is behind the wheel of each vehicle and capture performance data accordingly.

## TRIP LOGS AND TAGGING

A complete log of every trip with details on miles, idle time and speed. Tag trips for work or personal use.

## MESSAGING

It makes it easy for supervisors and drivers to exchange messages, photos, videos, and locations.

## HELPFUL UTILITIES

Where Did I Park, TrackMe ETA function, navigation, vehicle health monitor and other useful gadgets.

## SETTINGS AND HELP

Customize the app and get instant help on app functions.

## IN TROUBLE?

Press the panic button to alert your manager instantly and receive the emergency assistance you need.

<sup>1</sup> iOS users note: Due to inherent iOS limitations, the app can only detect calls made, received and missed. It cannot detect text messages, or any other type of cell phone usage such as browsing, email and maps.
