Choose the fleet tracking solution that pays off.

Azuga Fleet

Good for business. Good for drivers.

Not all fleet tracking solutions are the same.
There’s no question that fleet tracking is beneficial; however, if it’s costly to install, complicated to operate, and characterized as Big Brother, it loses its shine—in the office and on the road. Insist on a solution that puts your team first.

Azuga works for you and your drivers.
Azuga Fleet™ harnesses the power of GPS, vehicle diagnostics, and driver rewards to create a fleet tracking system that not only does the job, but makes everybody’s job easier to do.

Safety, accountability, and efficiency are gained at every turn.
From the moment the first driver turns on the ignition until the last driver signs out, Azuga Fleet is on the job. Every mile, every stop, every vehicle and driver alert—every action is tracked, analyzed, and reported to improve safety and efficiency.

Built to last.
Our tracker captures all the data your OBDII port provides, ensuring Azuga advances as vehicle diagnostics do. Configurable by role, Azuga Fleet provides managers, administrators, and drivers with instant access to only the information their jobs require. And best of all, Azuga Support is at your side, every mile you travel, today and for years to come.

Azuga Tracker OBDII
To track your fleet and capture all diagnostic data, simply plug Azuga Tracker into the OBDII port in each vehicle—no costly installation services required.

“Used Azuga because its solution was easiest to use, install and implement, helping us to become more efficient, increasing productivity and safety among our drivers. We’re really happy we made the switch.”

Eric Sietsema, CTO
Sietsema Farms

Azuga Fleet
Comprehensive, yet easy to use, Azuga Fleet provides immediate insight into your operations—from safety, accountability, and driver rewards to fleet efficiency.

Put safety first.
Take advantage of information—such as speeding, hard breaking, cell phone distractions, and service warnings—to keep both drivers and vehicles performing at their best.

Put diagnostics to work.
Leverage the valuable information—captured every time your fleet is dispatched—to maximize efficiency, reduce operating costs, and reward top drivers.

Keep tabs on your fleet.
Use the live map view to see where your fleet is at all times. Job, driver, speed, location, and weather information is available instantly.

Get the most out of every vehicle.
Receive vehicle alerts instantly, enabling your service team to perform maintenance work before a costly repair is needed.

Streamline dispatching.
Schedule calls, assign team members, and send automated dispatch notifications. Check status, duration, drive time, and miles traveled for every call.

Capitalize on insightful reports.
Gain a deeper understanding of vehicle usage, operating costs, and driver performance with reports that help you optimize fleet operations. Need custom reports? We provide them free of charge.

Make the company more profitable.
Make the job more rewarding.

Azuga FleetMobile

Track safety scores.
With Azuga FleetMobile, each driver can keep tabs on his or her safety score. Performance is tracked in real time, making self assessment easy.

Reward driver excellence.
Great drivers are invaluable—reward and retain them. Azuga Fleet Tracking features a rewards program that’s easy to administer, and drivers love.

Limit distractions.
Add DriveSafe and block smartphone distractions—such as texting, calling, and app use—when the vehicle is in motion.

Simplify timecards.
Add Time Card, and Azuga FleetMobile makes it easy for drivers to track time in real time, and submit timecards right from their phones.

Log and tag trips.
When a driver uses Azuga FleetMobile, data is captured from every vehicle he or she drives, creating a comprehensive trip log—trips can also be tagged as business or personal.

Increase efficiency.
Leverage a range of built-in utilities, such as vehicle health monitoring, navigation, tracking, parked vehicle location, and third-party apps.
Azuga puts data to work for you and your drivers.

The data you need.

Breadcrumb
View each vehicle’s movement and events, point by point.

Geofence Duration
Learn when vehicles enter and exit a geofenced area, and how long they stay there.

Speed
See which vehicles exceeded the speed limit as specified in your Speeding Alert settings.

Stops
Learn when and where stops were made, and if stops were made near a known landmark.

Idling
See how long a vehicle idled, where it idled, and if it idled near a known landmark.

Diagnostics
See the number of Diagnostic Trouble Codes (DTC) reported by vehicle; drill down to view more detail about the code(s).

Alerts
View fleet-wide alerts in one place, eliminating the need to sift through emails to find alerts.

The reports you want.

State Mileage
See how many miles a vehicle has been driven by state.

Posted Speed
Based on posted speed limits, see when and where drivers were speeding.

Who Was Where
Find out where a vehicle was on a specific date or which vehicles were at a specific address.

Driver History
View vehicle-to-driver associations, including miles driven by each driver on each vehicle.

Driver Score
View drivers’ scores based on individual performance and relative to other drivers. Use this report to push rewards to drivers.

Time Card
View shift and payroll information provided by drivers via the Azuga FleetMobile app. Shift reports can be exported for further processing.

Scheduled Reports
Schedule reports to run and send automatically. Team members receive reports, via email, with PDF or Excel files attached.
