

# Long Life Asset Tracker

## Rugged asset tracking with extremely long battery life

The Azuga Long Life Asset Tracker is a battery operated asset tracking device with superior cellular and GPS performance and exceptional power management. This device is manufactured by CalAmp, and is designed for managing assets that will be deployed for long periods without power or maintenance needs. You can greatly reduce yard checks and improve asset recovery and reclamation.

Azuga Asset Tracker lets you monitor the location and status of your assets with one easy-to-use Web interface, featuring dynamic maps, real-time alerts, historical reports and more.

### Applications include:

- ▶ Trailers and shipping containers
- ▶ Generators, Mobile lights and signs
- ▶ Mobile storage units
- ▶ Construction
- ▶ Heavy equipment

FEATURES
Superior cellular and GPS wireless performance
Long battery life up to 5 years with 1 location report per day
Sealed, rugged enclosure to withstand harsh weather (IP67)
External surface mountable
Built-in motion sensor
Internal GPS & CDMA antennas for easy installation
Geofence and in-motion alerts
Detailed historical activity reports

SPECIFICATIONS	
Dimensions	2.25" (L) x 2.25" (W) x 10.5" (H)
Weight	2 pounds
Location Technology	50 Channel GPS (with SBAS, DGPS)
Communication Modes	CDMA packet data and SMS
Operating Temperature	-22° to 164° F, -30° to + 75° C
Humidity	95%RH @ 122° F non-condensing
Shock and Vibration	U.S. Military Standard 202G, and 810F, SAEJ1455
Operating Voltage	3.6 volts
Battery	Lithium polymer field replaceable battery pack
