

Rechargeable Asset Tracker

Rechargeable asset tracking device perfect for powered assets in the field

The Azuga Rechargeable Asset Tracker is a weatherproof tracking device designed for reliable, long-term deployments. The device, manufactured by CalAmp, is an ideal solution for managing assets that are normally tethered to 12 or 24 volt systems but may sit disconnected for periods of time. The battery has a 6-month life and is recharged when the asset is powered on.

Azuga Asset Tracker lets you monitor the location and status of your assets with one easy-to-use Web interface, featuring dynamic maps, real-time alerts, historical reports and more.

Applications include:

- ▶ Trailers and container
- ▶ Generators, Mobile lights and signs
- ▶ Construction
- ▶ Heavy equipment

FEATURES
Superior cellular and GPS wireless performance
6 months with single message cycle per day on fully charged batteries
Sealed enclosure to withstand weather (IP66)
External surface mountable
Internal GPS & GPS antennas
Voltage monitoring and low battery alert
Detailed historical activity reports

SPECIFICATIONS	
Dimensions	2.15 x 4.33 x 1.59", (54 x 110 x 40.4mm)
Weight	12 oz, (340 g) with harness
Location Technology	GPS; GLONASS and QZSS capable
Communication Modes	GSM/GPRS/EDGE/HSPA and CDMA 1xRTT
Operating Temperature	-22° to 164° F, -30° to + 75° C
Humidity	95%RH @ 122° F (50° C) non-condensing
Shock and Vibration	U.S. Military Standard 202G, and 810F, SAEJ1455
Operating Voltage	12 and 24-volt vehicle systems
Battery	Lithium ion
