

Custom Built for Enterprise Fleets

Azuga Fleet is a powerful, easy-to-use solution that helps businesses build a culture centered on safety and performance, reduce costs, and enhance operations. Azuga offers an easier way of doing business, latest cloud-based technologies, easy-to-use interfaces and robust features at an amazing price.

Our focus on rewarding safe driving behavior is a game changer. No one likes to be tracked, but

everyone likes to win. With Azuga's gamification and social sharing tools, your workforce competes to be the safest on the team. When they complete, you win, with fewer accidents and violations and lower risk.

From major enterprises to small businesses, thousands of organizations trust Azuga for better performance and safer, more efficient fleet and service operations.

Tailored for the Unique Needs of Large Fleets

Safety

Enhance your safety culture with a telematics solution with proof about the truth (SafetyCam) and train employees to drive safer on the roads (Azuga Coach).

Customized Support

Azuga's concierge support team assists you with custom reports and actionable insights during monthly business reviews to pinpoint opportunities for improvement and impact your bottom line.

Open Api

The Azuga platform integrates well and includes the live support folks require to answer any questions you have.

Advanced Analytics

Predictive models from our Data Science team, enable fleet managers to make proactive, informed decisions regarding safety and vehicle maintenance.

Simply put, Azuga Fleet offers the data and reports you need to deliver the results you want.

Contract Terms

Rather than letting your existing GPS fleet contract auto-renew or be burdened with extended contracts every time you want to add more vehicles, Azuga offers coterminous contracts. Doing business is easy.

Zero Touch Management

Having worked with fleets of all sizes across numerous industries, we understand each fleet has unique needs. We'll help you tune the solution for your business with custom reports and monthly business reviews, so you can pinpoint areas that work well, and which areas need improvement to impact your bottom line.

The Next Generation of Connected Vehicle Solutions

Azuga is a leading connected vehicle platform, helping customers turn data about vehicles and their use into intelligence that improves operations and safety while reducing costs and risk.

We provide reliable end-to-end solutions for commercial fleets, government agencies, insurance companies and auto industry suppliers, encompassing hardware, the Azuga One platform, SaaS applications, support and data analytics.
